

Notice:

Scroll your mouse over the Individual thumbnail pictures in the side columns to view the embedded picture.

Be sure to CLICK on the words, titles, names, etc., that are underlined. They hold the “magic” to beautiful views.

Also, where your name is located below your picture, I could add a link to show your current location and information you would like to share.

For example:

- Address
- Email address
- Phone numbers
- Occupation (retired from, etc.)
- Family history since college days
- Whatever you'd like to share

If you would like only your email address added, I will just link it to your name.

If you have pictures from the 60's you would like to share, email or snail mail them to me.

Please, if there's anything offensive, or incorrect, contact me, and I will correct it.

The Web Pages are still under construction, I'm not the “fastest gun in the Northwest.”

Hope to see you in April.

I hope you enjoy the show.

Just Bob
